WORK EXPERIENCE

Dolphio Technologies

Sept 2023 - Present

Full-Stack Developer

At Dolphio, I was responsible to develop a full-stack, multi-part web application from the beginning. This required constant research and learning about new technologies and methodologies.

I also maintained multiple older project with legacy code. I managed to make many improvements, sometimes achieving 5x faster API response times.

I-Cell Mobilsoft Zrt

Apr 2020 - Jun 2022

Software Tester

I had the experience working in a Agile environment as a Softver Tester. I tested multiple web apps manually and with test automation tools. I was responsible for mentoring and onboarding new colleagues. Besides testing, I was responsible for providing technical support for customers regarding API implementations for multiple web apps.

EDUCATION

CodeCool

Jun 2022 - Oct 2022

Frontend Developer bootcamp

Budapest Business School

2017 - 2019

Bussiness Informatics - Higher- level vocational training
